📍 **North 24 Parganas**

SUMMARY

Data Engineering enthusiast, passionate about building scalable data pipelines and cloud solutions.
Skilled in Python,C,AI,SQL,MongoDB,Git.
Working on tools like Spark and Airflow to solve real-world challenges.

EXPERIENCE

10/2025 - Present ● Data Science Intern
Location | **Prodigy InfoTech**

EDUCATION

08/2023 - 08/2027 ● Bachelor of Science, Data Science
| **Gurunanak Institute of Technology 311**

PROJECTS

INFITO:Band X Application

📅 09/2025 - Present   📍 Smart India Hackathon 2025

We are creating a wrist band dedicated to fitness and an AI based app which connects with the band.
It scans vitals of one's body,gives needful instructions and alerts users for abnormal vitals.

- **Skills**: React.js,Node.js,Javascript,Python, HTML,CSS,Arduino IDE, ESP 32 microcontrollers

SKILLS

Python	C	SQL	MongoDB	React.js	Node.js	Cloud	ETL	Airflow	Git
